

## TECHNICAL DATA SHEET

### CLICKFIX SYSTEM – 40MM THICKNESS

Clickfix system facilitated by TufLite, is a modular panel suitable for the construction of vertical and pitched translucent glazings. Consisting of a multiwall polycarbonate panel, aluminium profiles, rubber gaskets and fixing hooks.

The panel is complemented by a range of accessories, making it versatile, easy to install and resistant to weathering.

The panel can be applied to all vertical and sloped walls with a pitch of less than 45°, related to vertical.

SHEET WIDTH	500mm
MINIMUM COLD BENDING RADIUS	-
LIGHT TRANSMISSION	CLEAR – 74 %
HEAT TRANSFER CO-EFFICIENT (U VALUE)	1.13W/M <sup>2</sup> °C
THERMAL EXPANSION	0.065MM/M °C
POSSIBLE HEAT AND MOISTURE EXPANSION	3MM/M
MAX. SERVICE TEMPERATURE	120°C
STRUCTURE	Multi - cell structure (10 Wall X)
